The top level comprises of the second bathroom which has also had a modernise with a great neutral pallet that flows throughout the whole home! The two other bedrooms are also located on this level with the second bedroom ample in size for a queen bed and space left over for a desk or a set of bunks! The third bedroom allows access to the top deck which is the perfect space to sit, relax and retreat from all the guests that will want to come with the home!

Plenty of exploring to do all within the home with miles of walking tracks along the foreshore or even get back to nature and take a hike through approximately 2400 hectares of National Park to explore the wild life living within! Which is virtually at the front door from this beach front home.
